

Hallett Cove School

2022 annual report to the community

Hallett Cove School Number: 640

Partnership: Marion Coast

Signature

School principal:

Mr Tony Hall

Governing council chair:

Mr Stephen Branch

Date of endorsement:

17 February 2023

Context and highlights

Hallett Cove School is a Reception to Year 12 public school located in the southern coastal suburbs of Adelaide, South Australia. The school is located within the Marion Coast Partnership and provides a comprehensive learning program for our students. Nearly all students live in the local suburbs, which are essentially seaside with minimal commercial and industrial activity.

The school was founded in 1987 to cater for Years Reception to 10, expanding to cater for Years 11 and 12 in 1996. The current enrolment of approximately 1200 students is organised into three levels of schooling: Junior School (R-6), Middle School (7-9) and Senior School (10-12). The school has a growing International Program with a number of study abroad students, and some short term Cultural and English Experience students. The school has approximately 30% of the population seeking school card assistance. We have an enrolment of approximately 3% Aboriginal students and 10% students from non-English speaking backgrounds.

Our school leadership teams consists of a Principal, a Deputy Principal, a Head of Junior School, a Head of Middle School, 6 Assistant Principals and 9 Curriculum, Wellbeing and VET leaders. There are approximately 140 staff across the site.

In recent years, the school has undergone a combination of capital and self-funded building work, providing our students access to high quality learning facilities. Some of the improvements to the site recently include redeveloped Middle School blocks, new Kitchen facilities, new Junior and High School Music rooms, laboratories and practice spaces. A state-of-the-art Music Recording Studio, learning spaces, as well as new outdoor covered learning areas complement an impressive Early Learning Centre. In the High School the Science laboratories have been refurbished, as was an Advanced Manufacturing laboratory, Photography laboratory and Textiles room. A range of other site-funded improvements have taken place recently, including upgrades to internet and technology related infrastructure, a significant nature play area and new Out of School Hours Care (OSHC) facility.

Governing council report

Hallett Cove School has continued to make impressive gains throughout a disruptive 2022 school year. The challenges of COVID-19 and online learning presented itself again, however, collectively as a school community we got through it effectively. HCS staff rose to the challenge and provided excellent support for our students to continue their learning. Our students adapted quickly to the changes, which allowed their learning to continue. I personally saw some excellent online lessons that created new pathways for learning and opportunities for students to learn at their pace. I would also like to recognise the effort and positive contributions of many parents and carers as we managed the staggered start to 2022.

Ongoing works across the school occurred throughout the year, and both staff and students adapted well to the building works going on around them. Improvements to our grounds, further refurbishment of classrooms, redevelopment of our Early Learning Centre and new and improved play spaces all value add to the experiences our children have on a daily basis.

I thank the finance team for their commitment to providing great value for our school fees. While recognising we would love to provide everything a child needs for their education the fact is that laptops/chromebooks and other class resources with consumables such as textiles, food ingredients, timber and printing costs all represent great value for money, and certainly less than acquiring these items individually.

Our school results have continued to improve, with positive grade band shift across the school, as well as improvements in some of our NAPLAN and significant growth in our SACE results. It is pleasing to see so many of our students achieving highly across the school. The impressive Phonics Screening results for our younger students will also set them up for success in later years, and I acknowledge the work of both teachers and curriculum SSOs in ensuring our students are successful. On behalf of the parent body, I wish to thank and congratulate our teachers for their resilience and commitment to teaching our children.

Parent involvement is vital to the ongoing success of the school. If you can, please join the Hallett Cove School Governing Council, help out at parents and friends, spend some time reading with the younger kids or volunteer in the school canteen. The more community engagement we have with the school, the greater the impact we can have on our children.

Thank you to Tony Hall and the leadership team who provided excellent stewardship through another turbulent year. Congratulations also go out to all our school leavers, who have endured more than most, yet still achieved some excellent results and have been great role models for their peers.

I take this opportunity to wish the new Governing Council and the school community every success in the new year.

Stephen Branch Chairperson

Quality improvement planning

Improvement Planning Directions for 2022

2022 was the first year of our 3-year Site Improvement Plan. Our three goals from 2021 remained similar for Literacy, Numeracy and Grade Band Shift.

Goal 1 Literacy

External School Review feedback confirmed that Close Reading was adopted and embedded in the Junior School with varying degrees of use and implementation in the high school. New work on the 7 Steps to Writing success was a focus for all Areas of Study this year. This work is aimed at assisting students in producing academic writing in each subject area. Intervention programs are continuing to have an impact, evidenced by students achieving SEA in NAPLAN and PAT-R. Phonics Screening Test results demonstrated above 90% attainment.

As a site, we have identified the need to work further on inferential questioning through the Close Reading and Before, During, After (BDA) process. Development, refinement and implementation of Literacy Agreements for teaching of Literacy across R-12 will be a key strategy in 2023.

Goal 2 Numeracy

The Numeracy team established a process to gather information about teacher need for Professional Learning and implemented Area of Study specific learning sessions. Curriculum leaders gave feedback that indicated this will improve teaching practices and continued work on targeted areas will benefit students in each subject area. Teachers of Mathematics worked on open-ended questions and authentic problem solving, to encourage student engagement and success. Intervention programs (BIN, GRIN and SNMY) are continuing to have impact, evidenced by students achieving SEA in NAPLAN and PAT-R.

We have continued our targeted Numeracy work with Area of Study to ensure greater relevance and engagement of appropriate Numeracy concepts. Staff development and implementation of Numeracy Agreements for teaching of Numeracy across R-12 has occurred, and will be further embedded in 2023. Teachers of Maths to continue work on open-ended questions and authentic problem solving, aligning current work with the adoption of DfE units of work.

Goal 3 Grade Band Shift

Pedagogy Action Groups have continued to allow teachers to employ action research, using the work of Dylan Wiliam and John Hattie and make deliberate pedagogical change. Groups set specific targets, strategies and data sets to enhance student outcomes across a range of subjects and year levels.

Pedagogy Action Groups will continue in 2023, with teachers already discussing areas for change and improvement at the end of 2022.

Learning and Assessment Plans have been implemented across the school to plan and structure content and provide students with due dates and assessment descriptions.

GPA analysis was conducted across all Areas of Study, with leaders and teachers tracking and reflecting on progress throughout the year.

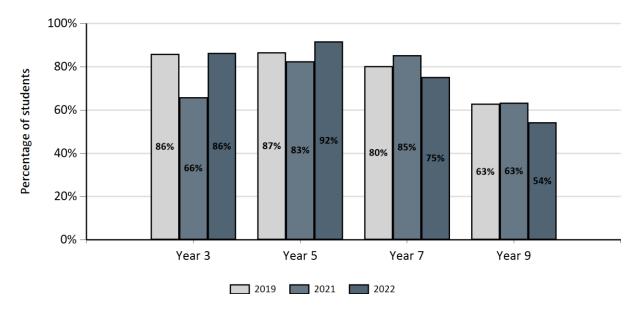

Each of the above three goals, and associated strategies, were impacted to various degrees through changes and consequences to COVID-19 restrictions.

Performance Summary

NAPLAN Proficiency

The Department for Education Standard of Educational Achievement (SEA) is defined as children and young people progressing and achieving at or above their appropriate year level. For NAPLAN, this is students achieving in proficiency bands 1 or more above the national minimum standard for reading and numeracy. The graph below identifies the percentage of non-exempt students enrolled in the school at the time of NAPLAN testing, who have demonstrated achievement in NAPLAN proficiency bands at or above the SEA for reading and numeracy.

Reading

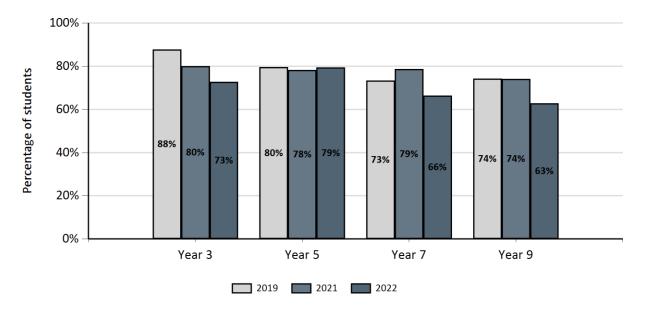

^{*}NOTE: No NAPLAN testing was conducted in 2020.

Data Source: Department for Education special extract from National Assessment Program Literacy and Numeracy (NAPLAN) SA TAA data holdings, August 2022.

Reporting of data not provided when less than six students in the respective cohort. A blank graph may imply student count being less than six across all cohorts.

Numeracy

^{*}NOTE: No NAPLAN testing was conducted in 2020.

Data Source: Department for Education special extract from National Assessment Program Literacy and Numeracy (NAPLAN) SA TAA data holdings, August 2022.

NAPLAN upper two bands achievement

This measure shows the number of non-exempt students enrolled at the time of NAPLAN testing who have demonstrated achievement in the relevant NAPLAN higher bands.

| | No. of students who sat the test^ | | No. of students achieving in the upper two bands | | % of students achieving in the upper two bands** | |
|---------------------------|-----------------------------------|----------|--|----------|--|----------|
| | Reading | Numeracy | Reading | Numeracy | Reading | Numeracy |

Aboriginal Learner Achievement Leaders' Resource (ALALR)

Key element focused on for school improvement in 2022: Tracking & Monitoring

New improvement actions implemented via the Aboriginal Learner Achievement Leaders' Resource to raise the literacy and numeracy achievement Aboriginal learners:

A spreadsheet is maintained to collect individual literacy, numeracy and attendance data on all Aboriginal learners. This is updated each term or more regularly for some students. The data collected includes Running Records, PAT-R and PAT-M, English and Mathematics grades, SACE results and NAPLAN results.

Our Aboriginal Education Teacher and school leaders analyse the data against Standard of Educational Achievement (SEA) and draw up individual learning goals for each Aboriginal learner focusing on gaps evident in data collection. These plans are communicated to the teachers through One Plans and guide the AET and APAS tutor work with the students.

Improvements achieved in literacy and numeracy outcomes for Aboriginal learners (Including individual student successes):

Students who completed NAPLAN in 2022 either have not completed it previously, or not done so for four years, and so comparison to previous results is with minimal data.

Over 80% of both English and Mathematics results showed either maintenance and/or growth in student achievement over 2022.

[^]includes absent and withdrawn students.

^{*}Reporting of data not provided when less than six students in the respective cohort.

^{**}Percentages have been rounded off to the nearest whole number.

South Australian Certificate of Education - SACE

^{*}NOTE: Reporting of data not provided when less than six students in the respective cohort. Due to rounding of percentages, data may not add up to 100%.

School performance comment

Hallett Cove School's overall performance in relation to student achievement is continuing to improve.

Our 2022 SACE results have continued to be impressive, achieving 100% SACE completion, and an extremely high passing rate for all subjects overall. Pleasingly, we achieved a high number of students achieving A grade results, with over 45% of our Year 12 students achieving at least one A grade result. We had 20 different subjects represented with A grade results, and one student achieved a merit in their subject (A). We also had a record high of over 65% of all grades at Stage 2 in the A and B grade bands.

The VET enrolments continue to be valued at HCS, and students are encouraged to complete a course of interest. Again in 2022, over half of our Year 12 students completed a certificate qualification, assisting them to be successful with their SACE.

Our NAPLAN results have demonstrated growth in some areas across the Reading and Numeracy results. We continue to implement site-wide improvement strategies to ensure we are seeking to support all students to achieve the Standard of Educational Achievement (SEA). Whilst our Year 3 and Year 5 results reflect impressive gains, our Year 7 and Year 9 results demonstrate a decrease in achievement. These two results were heavily impacted by student absence due to COVID-19 and isolation rules, with more than six times the number of students unable to sit the Year 9 test in 2022, compared to 2021. This has a negative impact on our data sets. Additionally the upper progress of students across a number of year levels is at or above state average.

Our Phonics Screening test results have continued to improve, with over 90% of our students meeting the requirements in Year 2.

Hallett Cove School also uses Grade Point Average (GPA) data to assess the improvements in each class, year level and subject area. We continue to have strong gains in the successful level of achievement in C grades and above, and our A and B grades across Years 1 - 10 are reflective of our Stage 2 SACE results.

Attendance

| Year level | 2019 | 2020 | 2021 | 2022 |
|-----------------|-------|-------|-------|-------|
| Reception | 91.7% | 86.7% | 92.4% | 88.4% |
| Year 1 | 89.5% | 85.4% | 91.9% | 90.3% |
| Year 2 | 90.3% | 83.3% | 92.5% | 89.6% |
| Year 3 | 92.3% | 85.7% | 89.8% | 86.5% |
| Year 4 | 89.2% | 86.6% | 92.1% | 88.4% |
| Year 5 | 89.2% | 83.9% | 93.2% | 88.1% |
| Year 6 | 90.0% | 86.2% | 91.0% | 87.4% |
| Year 7 | 90.8% | 81.6% | 89.6% | 85.5% |
| Year 8 | 91.2% | 81.9% | 87.3% | 86.0% |
| Year 9 | 87.2% | 83.2% | 86.4% | 76.6% |
| Year 10 | 89.4% | 81.9% | 87.4% | 80.9% |
| Year 11 | 88.1% | 80.7% | 82.0% | 80.4% |
| Year 12 | 89.2% | 81.8% | 85.1% | 81.9% |
| Secondary Other | N/A | N/A | 75.6% | 98.0% |
| Total | 89.6% | 83.1% | 88.3% | 83.9% |

Data Source: Site Performance Reporting System (SPER), Semester 1 attendance.

NOTE: A blank cell indicates there were no students enrolled.

Attendance comment

Our attendance fell below 90% in 2022, largely due to a decreased rate from our middle/upper primary students, and our senior students in Years 11 and 12. As a site, COVID-19 and the impact on schooling was a contributing factor for this decrease in attendance.

As a site, our processes for daily attendance include:

- Rolls are marked lesson by lesson through Daymap, which creates an alert if there is absence.
- Absence SMS messages are issued daily to parents/caregivers
- · Homegroup teacher rings home if a student is absent for three consecutive days
- Alert letters for truancy are issued by the year level leader
- · Leadership teams monitor attendance in their weekly meetings.

Behaviour support comment

Hallett Cove School's Behaviour Support procedures are informed by the Department for Education guidelines, and guided by our school values of Organisation, Respect, Personal Best, Caring and Listening.

Site behaviour data reflects a positive learning culture and one that is similar to state-wide trends in regard to behaviours. The proportion of students suspended is similar to state-wide averages. Behaviours resulting in suspension were mostly from student non-compliance.

With the implementation of Positive Behaviours for Learning in 2022, we saw a downwards trend in disruptive behaviours and expect to see further improvements in 2023.

Parent opinion survey summary

The Parent Survey in 2022 had 202 responses.

Overall from the feedback, parents clearly feel their child is important to the school, and that people treat each other with respect at school. The overwhelming majority value both the frequency and effectiveness of the communication from school. Parents know the standard of work expected from students, and the majority rated teacher feedback as useful for their child.

Some of our lowest ranking responses were in relation to parents having input into their child's learning and receiving learning tips to assist their child.

These surveys always prompt opportunities for improvement and as a follow-up the leadership team are exploring ways to make further improvements to some of the lowest ranking areas in the coming years.

Intended destination

| Leave Reason | Number | % |
|--|--------|-------|
| NG - ATTENDING NON-GOV SCHOOL IN SA | 23 | 12.4% |
| NS - LEFT SA FOR NSW | 2 | 1.1% |
| NT - LEFT SA FOR NT | 1 | 0.5% |

Relevant history screening

Screening at Hallett Cove School includes volunteers working in areas such as classroom support, special sport programs, camps, excursions, and canteen.

All volunteers must complete the HCS pack, which includes personal information for our records, as well as the required training and certificates for all volunteers.

All volunteers must sign in and out through the front office.

Qualifications held by the teaching workforce and workforce composition

All teachers at this school are qualified and registered with the SA Teachers Registration Board.

| Qualification Level | Number of Qualifications |
|------------------------------|--------------------------|
| Bachelor Degrees or Diplomas | 131 |
| Post Graduate Qualifications | 68 |

Data Source: Department for Education HR Management Reporting System, extracted Term 3 2022.

Please note: Qualification data is indicative only and reflects what has been recorded in the Department's HR system. Staff who have more than 1 qualification will be counted more than once in the above qualification table. Therefore the total number of staff by qualification type may be more than the total number of teaching staff.

Workforce composition including Indigenous staff

| | Teaching Staff | | Non-Teaching Staff | |
|-----------------------|---------------------------|------|--------------------|----------------|
| | Indigenous Non-Indigenous | | Indigenous | Non-Indigenous |
| Full-Time Equivalents | 1.0 | 80.5 | 0.9 | 28.5 |
| Persons | 1 | 90 | 1 | 37 |

2022 School Annual Report: Tier 2 Funding Report*

*Tier 2 funding provides additional resources to support students who are unlikely to obtain the desired outcomes without further support.

| Tier 2 funding section | Tier 2 category (where applicable to the site) | Briefly describe how the 2022 funding was used to improve the relevant Standard of Educational Achievement (SEA) outcomes | Outcomes achieved or progress made towards these outcomes |
|--|---|--|---|
| | Improved wellbeing and engagement | SSO support with targeted classes/students and the creation of behaviour management plans. | Students engaged highly evident in curriculum results and class behaviours. |
| Targeted funding for individual students | Improved outcomes for students with an additional language or dialect | Targeted SSO and teacher support to deliver support for students across the site. The support focuses on speech (oral language), reading abilities and written fluency. | Students have continued to develop their English skills. |
| | Inclusive Education Support Program | Targeted SSO support to provide speech programs, reading, writing and numeracy based support. Some of the targeted intervention programs include multi-lit and minilit. | Increased level of SEA across the site. |
| Targeted funding for groups of students | Improved outcomes for - rural & isolated students - Aboriginal students - numeracy and literacy including early years support First language maintenance & development Students taking alternative pathways IESP support | Targeted SSO and teacher support for individual and small groups to meet personalised student needs including literacy group reading, a range of intervention programs, as well as support and intervention focused around attendance rates/issues. Flexible Learning Options (FLO) are explored for relevant students and study/career pathways are developed to ensure students are successfully engaged in their education. | Improved reading, writing an numeracy levels for individuals. Improved NAPLAN, PAT-R, PAT-M results. Improved attendance rates for individuals. |
| Program funding for all students | Australian Curriculum | Implementation of intervention programs and additional support for students. | Increased GPA (school-based) Increased SEA achievement in NAPLAN |
| | Aboriginal languages programs Initiatives | NA | NA |
| | Better schools funding | Better Schools Funding was used to establish a range of intervention class to support students literacy and numeracy development. Some of this included Year 8 GRiN and Year 9 and 10 Numeracy and Literacy classes. | Improvements in the number of students achieving SEA in PAT-M and PAT-R tests. |
| Other discretionary funding | Specialist school reporting (as required) | NA | NA |
| | Improved outcomes for gifted students | NA | NA |
